

GALLERIA PARKWAY

Galleria Parkway is a 1.5 mile, three-lane divided curb and gutter arterial designed to provide access to a new 135 acre commercial development in Madison County. The geometry of the arterial was revised to incorporate two ¾ mile three-lane roadway sections with single-lane roundabouts at each end. This connector road will provide a portion of the connection between Hwy 463 in Madison, MS and Gluckstadt Road in Gluckstadt as well as provide access to the new commercial development. The connector, which was designed in accordance to MDOT urban standards, includes the design of two single lane roundabouts and multi lane alternate roadways.

Mendrop~Wages responsibilities included:

- Planning
- Preliminary Design
- Cost Estimating
- Environmental Permitting
- Final Design
- Construction Management
